

William J Boro, DC has been in private practice in Annapolis, Maryland for over 30 years. Dr. Boro uses sacro occipital technique, applied kinesiology, and Van Rumpft technique, in addition to using other standard methods of diagnosis, for the evaluation of structural, chemical and mental aspects of health. He is intent on increasing other doctor's knowledge and understanding of how chiropractic is beneficial in cases other than strictly musculoskeletal problems. He has taught and presented papers nationally and internationally and looks forward to presenting more case studies in the future.
